---

Pamulang University - Informatics Engineering

Juni 2021 - Now

### CORE COMPETENCIES

---

- Good communication
- Able to work in a team and quickly learn new things.
- Able to adapt quickly to new technologies and tools.
- Proactive in learning and developing new skills.
- Good time management, discipline and responsibility towards work.

### EXPERIENCE

---

**Dumbways technology indeonesia**  
FullStack Developer

Oct 2023 - Jun 2024

Underwent intensive training as a Fullstack Developer, where I learned and applied skills in front-end (HTML, CSS, JavaScript, React) and back-end (Node.js, Express, MongoDB) development. During my training, I participated in team projects, developed end-to-end web applications, and applied best practices in coding, debugging, and deployment.

Responsible for managing the financial relationship between the cooperative and members, including creditworthiness analysis, loan application and management, and financial education. Monitor and follow up on loan installment payments, find solutions for late payments, and build and maintain good relationships with members. Manage related administration and prepare financial activity reports. Able to perform in-depth analysis, effective communication, and understand financial products.
